

Dear: State Senator/Assemblyman/Governor

As a Village of Massapequa Park resident, I support creating more affordable housing; however, I am adamantly opposed to the state forcing more housing in our village.

We moved to the suburbs because we wanted less density and a better quality of life. No two villages are alike. Our mayor and trustees know our community better than any government bureaucrat and we elect them to make decisions that are best for our village.

The governor's housing proposal does not belong in the budget. This issue is too complicated and important to be a political pawn.

As our state representative, I strongly urge you to remove the housing issue from the budget and work with our village officials to create a practical approach that meets the individual needs of our village.

Sincerely,

Name and Address
